THE ONES

A single mirror across a double vanity provides more reflective light for a brightening effect.

Frosty white and cool greys are a beautiful backdrop for an eye-catching soaker tub.

COLLECTIVE STUDIO, TORONTO

Longtime collaborators Alana Firestone (*left*) and Jordy Fagan merged their design firms to form Collective Studio in 2017. Drop-dead gorgeous kitchens, sleek palettes and custom details are the signatures of their fresh take on contemporary style.

WHY NOW: A growing list of projects demonstrates the firm's ever-evolving sophisticated style. The ability to make small spaces both stylish and functional has become one of their hallmarks.
